

InterRisk Thai Flood Report <2020 No.05>

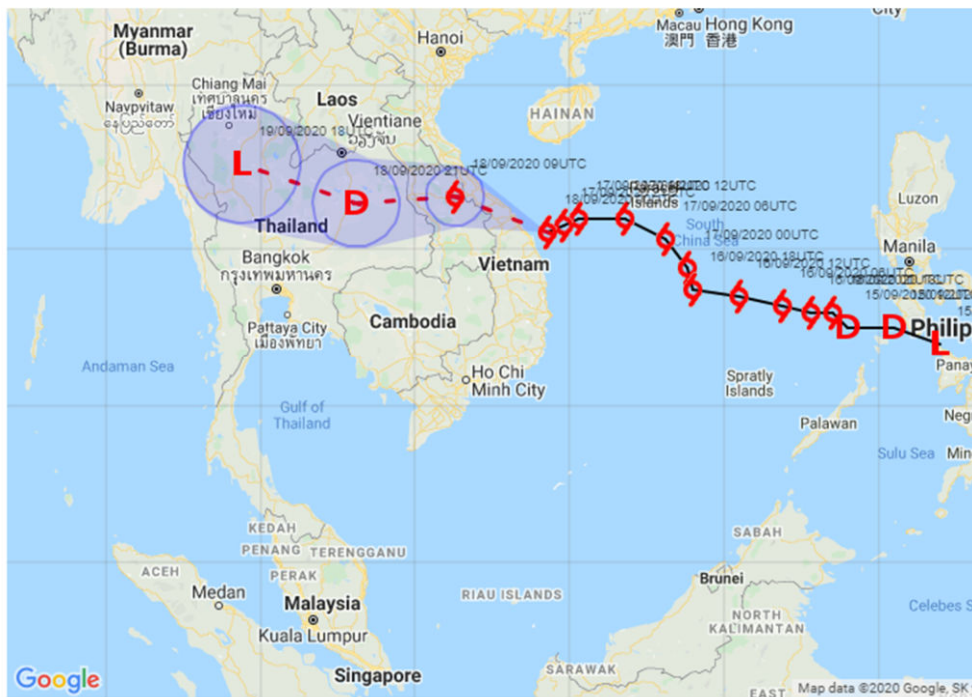

Tropical Storm Noul Approaching Thailand

Summary

- ✓ Typhoon from Category 3 Tropical Storm Noul could reach Thailand as early as this Friday 18th of September, according to TMD (Thai Meteorological Department).
- ✓ Torrential rain is expected with strong winds starting from the Northeast, then reaching the North, Central, East and South of Thailand respectively.
- ✓ Areas with low elevations could risk flash floods and water runoff from the severe rainfall.
- ✓ Recommendation to factories are to secure buildings for wind and storm damages, while closely monitoring the news for further updates.

Forecast

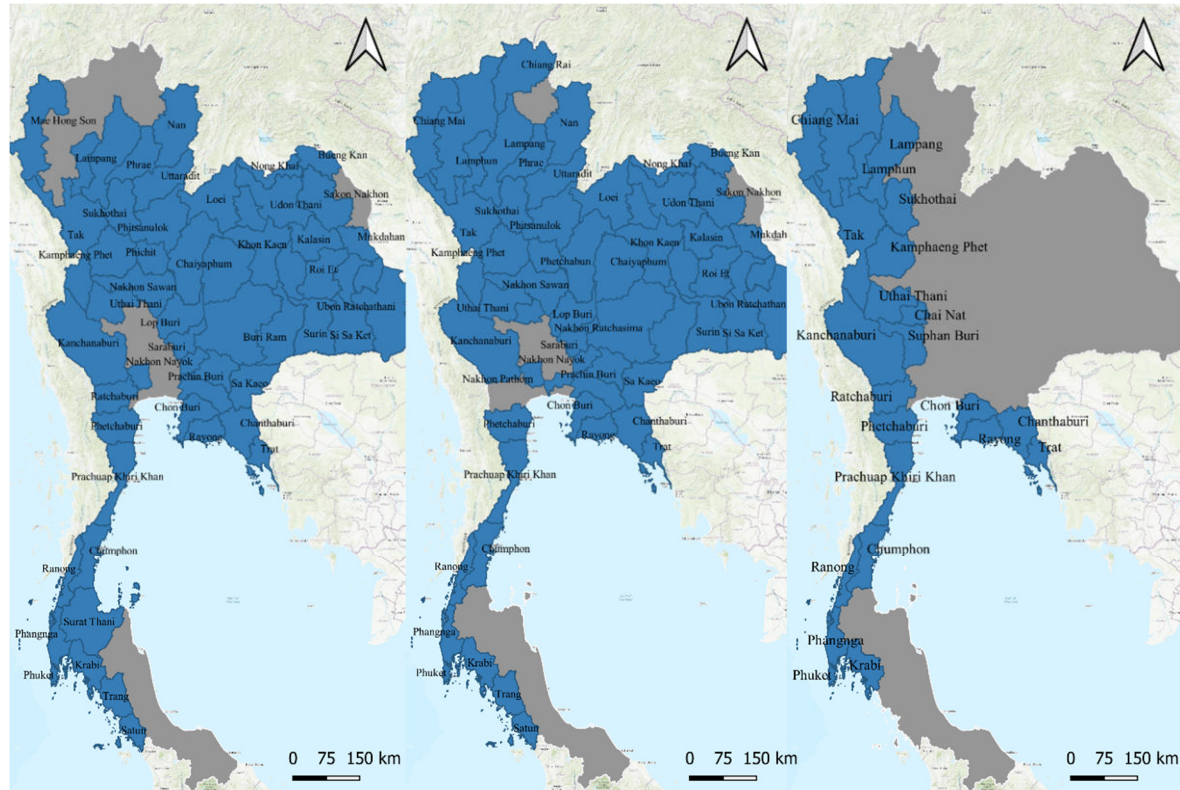

- ✓ At 10:00 am 17th September, the storm is due 600 km northeast of Vietnam with sustained winds of 80 km/hour, and travelling at 20 km/hour and expected to intensify.
- ✓ In the Andaman Sea and the Gulf of Thailand, the wind waves will be stronger with the waves 2-3 meters high in the Andaman Sea, about 2 meters high in the Gulf of Thailand.

Expected track of tropical storm Noul (Source: TMD)

Affected Provinces
