

# FIRE SAFETY TRAINING ONLINE COURSE

## THE FIRST FIRE SAFETY ONLINE COURSE IN THAILAND

We concern about fire safety in the workplace the most. Our goal is to decrease the risk and possibility of fire accidents, leading to this online course and make your workplace more safe!

For 2 hours of the training program, with interesting contents, direct experiences from the instructors, and activities designed to review knowledges and create authentic awareness.

Towards the end, employees will effectively know how to look for fire risk on their own, creating a safer workplace environment.

### Easiest to Learn in anywhere

## COURSE DESCRIPTION

This online training allows participants to interact with our instructors to learn about the principle of fire safety for the workplace. It aims to ensure that all participants know how fires occur in the workplace and what actions to take not only in the event of a fire, but also during the operation shutdown period.

Principle

Elimination

Firefighting

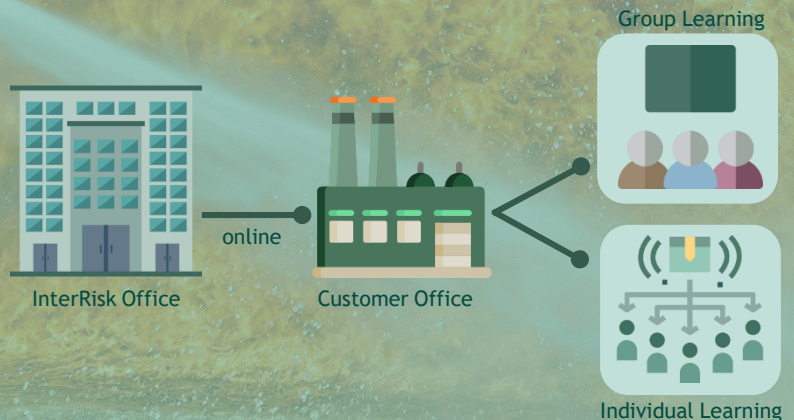

Tips

Case Study
