## INTERRISK

### Smart solutions for a effective ROAD SAFETY TRAINING

We provide the training programs were found to be effective in changing the participants' attitudes towards safe driving.

#### After Training Participants...

- ✓ Over 47% of participants showed improved road safety attitudes, reaching “high” to “excellent” levels, while over 30% progressed to a “moderate” level.
- ✓ Only 14% remained at a “low” level, and fewer than 10% still lacked awareness.

## 4 Reasons Why our “Training Service” Stands Out !

### Increase knowledge

The training is to review, increase knowledge on road safety and decrease the risky driving behavior of the participants.

### Designed for you

It is designed to be concise, covering all aspects of road safety knowledge in terms of easy to access information.

### Modern equipment

Each activity is created to provide knowledge and evaluate participants' skills using modern equipment.

### Evaluation

Participants will receive the training material, evaluation report of the training, and certificate.

TRAINING**

**WHAT YOU CAN LEARN**

**TRAINING TOPIC**

**Basic Course**

This is a basic course and is our most popular program. The course can train all types of vehicle users. Training material contains a review of road safety knowledge, defensive driving, driving preparation, driving techniques and basic road safety regulations.

**Awareness Course**

This course has been developed to emphasize the participant about accident awareness and the loss that follow, from visualizing the consequences of the accident and focusing on activities that create safety consciousness to reduce accidents.

**Manner Course for Executive Driver**

This course is designed to cultivate driving manners for executive driver. The main content of this course is how to cultivate manners and how to control emotions while driving to impress any client.

**Truck Course**

This course is designed to educate truck drivers on road safety, driving awareness especially for trucks, plus more tips and knowledge aside from truck driving techniques.

**Motorcycle Course**

This course is designed to instruct the participant about safe motorcycle riding, motivate the trainee to have a safety mindset to prevent accidents and decrease the chance of motorcycle accidents.
